An act to add Chapter 3.5 (commencing with Section 110286) to Part 5 of Division 104 of the Health and Safety Code, relating to food and drug safety.

LEGISLATIVE COUNSEL'S DIGEST

AB 1512, as amended, Lieu. Food and drugs: sale.

Existing law, the Sherman Food, Drug, and Cosmetic Law, contains various provisions regarding the contents, packaging, labeling, and advertising of food, drugs, and cosmetics. A violation of any of these provisions is punishable as a misdemeanor.

This bill would prohibit a retailer from selling or permitting to be sold after the "use by" date infant formula or baby food that is required to have this date on its packaging pursuant to federal law. It would also prohibit a retailer from selling or permitting to be sold after the expiration date *a an over the counter drug, as defined*, that is required to have this expiration date on its packaging pursuant to that federal law. A violation of these provisions would, notwithstanding the above-described penalty, be punishable as an infraction with a specified fine. By creating a new crime, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.

State-mandated local program: yes.

*The people of the State of California do enact as follows:*
